

WE CREATE

CUSTOM ARTISAN FITTINGS FOR STREET FOOD VENDING

WE ASSIST YOU FROM **DESIGN**,
TO **CONSTRUCTION** INCLUDING THE
AFTER-SALES **SERVICE**.

CARTS

A linear simplicity in the style of the original ice cream carts, without compromising on performance and the functionality in the layout.

With the possible addition of oak wood finishes and profiles, our carts stand out for their elegance and richness of equipment, recalling a retro style inspired by the old Parisian Crème Gelée carts.

The ice cream carts are made entirely by our specialised technicians, based on the design of the technical department. ICECAR creates all the systems and assemblies within its own company, down to the last detail.

Our carts are available with continuous power supply or with 6/8 hours of autonomy (after charging overnight). Complete and versatile, they are compact and easy to move. They can be customised and accessorised with a wide range of options, to satisfy even the most demanding requests.

- Possibility of complete customisation (colours, graphics, logo, painting...)
- Interior and exterior restyling of existing carts
- Guaranteed post-sales technical assistance

TRICYCLES

Tricycles are one of the most interesting vehicles in our catalogue for street vending.

Like the carts, they are light and versatile, but they also offer the possibility of covering greater distances effortlessly, especially if you choose pedal assistance.

The ice cream tricycles are made entirely by our specialised technicians, based on the design of the technical department. ICECAR creates all the systems and assemblies within its own company, down to the last detail.

Our tricycles are available with continuous power supply or with

6/8 hours of autonomy (after charging overnight).

Complete and versatile, easy to move, with the possibility of electric pedaling.

They can be customised and accessorised with a wide range of options, to satisfy even the most demanding requests.

! Possibility of complete customisation (colours, graphics, logo, painting...)

! Interior and exterior restyling of existing vehicles

! Guaranteed post-sales technical assistance

Street **food vehicles** equipped for street vending —

We build a wide range of **FITTED VEHICLES** developed specifically for the sale of food products that must be stored at a controlled temperature, both with regard to **cold foods** (ice cream, drinks, fish, ...) and **heated foods** (fried food, sandwiches, hamburgers, ...)

These are actual **street vending outlets** complete with all the essential equipment and accessories for selling.

The **ICECAR** vehicles set up for street vending fully comply with the hygiene and safety regulations and all the materials used are suitable for contact

with food substances.

For motorised vehicles, we also provide the services for **technical documentation** preparation required for approval and registration of the vehicle.

The **ICECAR** team assists the customer from the time of **Initial consultation** right up until the **after sales** period.

A complete journey alongside customers from start to finish.

FEATURES OF OUR EQUIPPED VEHICLES

- **Custom-made artisanal set-ups** made at our company in Belluno – Italy by trained and specialised technicians.
- **6/8 hours autonomy** without electrical power.
- **Vast catalogue of accessories** (radio, LCD screen, LED lights, cream whipper, coffee machine, cone holder, cup holder, additional shelves...)
- Possibility of **complete customisation** (choice of sunroof, custom graphics and image, custom RAL colour, glossy / metallic / matt paintwork...)
- Rapid response **after-sales assistance** service

OUR SERVICES

- The sale of **new and or used equipped vehicles**
- Supplies of **!ttings** for street vending on a **pre-existing vehicle** provided by the customer
- **Servicing** and/or **renovation** of mobile street vending vehicles both internally and externally (furnishings, systems, machinery, graphics, painting, etc.)
- Supply of **spare parts** and replacement products for converted vehicles.
- **After-sales technical assistance** by phone or on site anywhere in the world.
- Service of worldwide **shipping and delivery**.

www.icecar.it

OUR **EXPERIENCE** AT YOUR **SERVICE**

Argenta Srl was set up in 1984 on the initiative of **Argenta Guerrino**, offering sales and assistance for refrigerated and cooling machines, refrigerated cabinets, cells, ice cream making machines, refrigeration systems, etc.

The turning point came with the first participation in the MIG International Gelato Exhibition in Longarone BL in 1992, which marked **the start of exports to Northern European countries** especially Germany, Switzerland, Holland and Austria.

In recent years, thanks to **further investments** in international trade fairs and in web promotion systems, the company has **expanded sales** far beyond the borders of Europe.

We have reached: Germany, Austria, Switzerland, the United Kingdom, Belgium, the Netherlands, France, Spain, Portugal, Slovenia, Croatia, Bulgaria, Romania, Hungary, Slovakia, the Czech Republic, Poland, Finland, Sweden, Russia, Malta, Albania, Greece, Tunisia, Morocco, Sudan, Israel, the United Arab Emirates, Malaysia, Mexico, Costa Rica, the Netherlands Antilles, Australia.
